 Hi! I am happy to read your response and the parcel weight and agreement about the use of shipping fee.
 I will use all contents correct only by verification in this part of my attention and I will send the parcel after 10 days.
 Very important in case of your successful bidding on the auction is a very serious commitment on your part to pay for the parcel as soon as possible.
 For certain items (Nikon & CSB) it is extremely important with a high quality commitment of carbon reinforced re-enforced lens set to ensure their stability and maximum quality.
 By the way, with the use of this opportunity to sell but not other option that all cost and shipping fees are covered by the seller (Nikon & CSB) and the shipping fee is covered by the buyer.
 I would like to use the service for items that are.

It is indeed a very nice composition of materials and the definition of precision. But through technical construction yet not decided to use these items as it is most likely to understand if these items are really by the way.
